SKILLS

- **Data Analytics & Visualization:** Excel, Data Analysis, Dashboarding (interested in Looker Studio)
- **Programming:** JavaScript, TypeScript, C/C++, Python (basic), SQL (basic)
- **Front-End:** React.js, Redux, Context API, Chakra UI, Tailwind CSS, HTML, CSS
- **Back-End & Database:** Node.js, Express.js, MongoDB
- **Tools:** Git/GitHub, VS Code, Postman, Jira, Vercel, Render
- **Practices:** Agile, Code Reviews, Component Design

EDUCATION

Bachelor of Technology

- **Institute:** Manipal Institute of Technology [MIT], Udupi, India
- **Department:** Automobile Engineering
- **Minor Specialization:** Fundamentals of Computing
- **Passing Year:** 2024
- **CGPA:** 7.86

EXPERIENCE

Business Analyst Intern

May 2025 – Present

◇ Walking-Tree, Mumbai (Intern, On-Site)

- Delivered data-driven analyses of sales and business performance, uncovering trends and opportunities to support strategic growth and optimization across multiple product lines and regions.
- Managed comprehensive product and inventory analytics using advanced Excel, ensuring effective resource planning and timely responses to evolving market demands.
- Developed actionable customer and market insights through behavioral segmentation and product mix analysis, informing targeted sales, marketing, and inventory strategies.
- Coordinated and tracked weekly leadership meetings, maintaining actionable minutes and ensuring timely follow-up on departmental objectives for organizational alignment.
- Authored clear documentation and executive reports, enhancing team clarity and facilitating confident, data-backed decision-making.
- Strengthened inventory and return management practices by validating cycles and minimizing risk from obsolete or slow-moving stock.
- Analyzed product and segment profitability, identifying margin opportunities and supporting optimal pricing and assortment decisions.
- Translated complex datasets into high-impact recommendations using advanced Excel analytics and data visualization, driving continuous business improvement.

Front-End Development

Jan 2024 – Jun 2024

◇ Peryton, Mumbai (Intern, Remote)

- Built scalable React applications with optimized UI components, sparking curiosity in data visualization.
- Collaborated with backend teams to integrate APIs, ensuring seamless data flow for potential analytics use.
- Managed version control and performance optimizations, laying groundwork for data-driven enhancements.

PROJECTS

Shopee – E-commerce Platform (ReactJS, Redux, JavaScript):

- Built a responsive e-commerce site with 20 dummy products, including catalog, cart, and checkout functionality. Used Redux for state management and implemented dark/light mode for better UX.
